

CONSTRUCTION

PROJECT PROFILE **QUALCOMM MEMS Technologies, Inc.**

QUALCOMM develops its technologies and solutions for the purpose of enabling key participants in the wireless value chain.

FAST FACTS

Project: Semiconductor Tool Hookup

Location: San Jose, California

Project delivery type

- > Architectural: Plan & Spec
- > MEP: Plan & Spec

Highlights

- > Semiconductor equipment tool hook-up in an existing clean room
- > Approximately 100 tools and equipment moved and connected within 12 weeks
- > Tools supported CVD, PVD, Dry Etch, Photo Etch, and Wet Etch processes
